One person's actions may seem small, but together our ripples can form a wave of change.
”

Old Clee Primary Academy Autumn 2025 Issue #01

A little about us...

We are a group of enthusiastic students passionate about reducing our carbon footprint both in and out of school. So far this year, we have met to discuss our goals and what we hope to achieve throughout the academic year. Our first step was to identify all the great things we already do to help the environment — and we were amazed by how much is already happening - we already have recycling bins within classrooms a mini beast house, our very own orchard and vegetable allotments growing our very own produce.

Harvest Festival Success

Our amazing Eco Warriors have been busy helping out with this year's Harvest Festival! After all the generous donations from our school community came in, our Eco Warriors rolled up their sleeves and worked together to sort and bag up all the food. They made sure everything was packed carefully and ready to be sent to The Rock Foundation, where it will go on to help families and individuals in need. We're so proud of their teamwork, kindness, and dedication to making a positive difference — both for our community and for the planet!

Uniform Swap Shop

Already this year, our Eco Warriors have been making a positive difference! 🌱 During Parents' Evening, we helped promote recycling and reusing by organising a Uniform Swap Shop. Families were able to donate, exchange, and pick up pre-loved school uniforms — helping to reduce waste, save money, and give good-quality clothing a new life. It was wonderful to see our school community coming together to support a more sustainable future! 🌍💚

Did you know...

that when we run water to brush our teeth, we use approximately 6 litres of water!

CHALLENGE!

This term we challenge you to brush your teeth at home without leaving the water running.
